Dr. Andreas Ledl

Partner

German Patent Attorney

European Patent Attorney

Representative before the UPC

Biochemist

Andreas' expertise extends to all aspects of intellectual property protection in the fields of pharmaceuticals, biotechnology and biochemistry. He has extensive experience in patent prosecution and advises on strategy and management of patent portfolios in the most important jurisdictions worldwide. He has particular experience in grant, opposition and appeal proceedings before the European Patent Office. He regularly prepares freedom-to-operate, validity and due diligence analyses for clients. A particular achievement has been the creation of an extensive patent portfolio for a successful/leading opioid-based analgesic.

TESTIMONIALS

"Andreas Ledl is a skilled portfolio manager with an instinct for commercialisation strategies. A biochemist by training, Ledl has made himself instrumental to clients in the cutting-edge RNA space. His sectorwide knowledge lends itself to FTO analyses and due diligence."

- [IAM Patent 1000, 2023](#)

"The collaboration with Andreas Ledl and Eva Dörner has become indispensable for us. Andreas Ledl's level-headed manner and his focus on addressing all involved parties and presenting problems in an abstract way is second to none. Eva Dörner's chemical expertise undoubtedly rivals that of our in-house chemists while always being one step ahead in negotiations with patent lawyers on the other side. Both leave any ego behind and always have the best possible result for their client in mind. I haven't seen it that often."

- [Legal 500 EMEA, 2023](#)
