Dr. Fabian Kiendl

Counsel
German Patent Attorney
European Patent Attorney
Representative before the UPC
Physicist

Fabian was already gathering experience in the world of computer networks at a time when this was still frowned upon. In other words, he was a “digital native” long before the term was coined. His expertise is very much in demand in all patenting matters relating to machine learning, security, networks, blockchain as well as software and digitalization in general. He also prepares patent applications from the fields of physical measurement techniques, energy technologies and signal processing, in particular from the field of science, in which he completed his training in intellectual property protection.

CAREER

since 2019	Counsel at Maiwald
since 2014	Patent attorney at Maiwald
2005 - 2014	Patent engineer in the patent department of Forschungszentrum Jülich
